Welcome address

Dear Friends and Colleagues,

It is a great honor and pleasure for us to invite you to the 1st International Congress in Nursing Research Education and Practice which will be held on October 15th – 17th 2009 in Thessaloniki Greece.

In the technocratic - oriented environment of the 21st century the congress aims to provide an image of the change that have already taken place or will occur in the future concerning nursing education, research and everyday clinical practice; but furthermore, it aims to provide emphasis on the human dimension.

The Scientific Committee has compiled an educational program including round tables, lectures, workshops and concurrent sessions which will hopefully, cover the interests of every participant.

The prominent scientists have been invited to feature as speakers to share with us their knowledge and experience are already a guarantee towards this aim; yet to further this scope, we kindly request and count on your active participation through the presentation of your work on any of the topics listed in this brochure. Your submissions will be most welcome and your contributions highly appreciated.

With the activities mentioned above the Organizing Committee aspires to provide a scientifically fertile event as well as a pleasant and relaxing stay in Thessaloniki, a beautiful Greek city by the sea whose history goes back many centuries.

We are looking forward to welcoming you.
